When Ashman Food Products Ltd. took the decision to be fully compliant with International Food Safety Standards we contracted the services of Mrs. Fay Bailey- Gregory of FB Food Safety & Quality Management Systems to guide us through the process.

We were very impressed with her knowledge of all aspects of training necessary to achieve our goals and we were provided with continuous contact on and off site.

As a result, Ashman Food Products Ltd. has received SQFI Certification with Excellent scores for the past two years.

FB Food Safety & Quality Management Systems is in our opinion the Consultants who can provide companies with the necessary training to develop and maintain a recognized Safe Food Quality Standard.
